LoA List of Abbreviations

Chapter 1

This is the Title of the First Chapter-This is a super long title of a Chapter, testing the line wrap and move over to next line.

This is a sample document for the Auburn \LaTeX style-files known as `aums` (for Master's papers) and `auphd` (for Ph.D.'s). The appendix contains some of the history of this project, including contact information for the authors.

Site administrators should upgrade to $\text{\LaTeX}2\epsilon$; however, the style files should work with the older \LaTeX . The style files should be available on mallard. The current release is available by anonymous ftp to `ftp.dms.auburn.edu` in the directory `aums` (on-campus computers may also retrieve these from `http://www.dms.auburn.edu/manuals`). Most users will need either Lamport's book [7] or Hahn's book [1].

If you do not need the List of Abbreviations, comment the `nomenc` package and associated nomenclature commands.

Theorem 1.1 This is an example theorem.

1.1 This is an example of a section heading

This is some text which follows the section heading. You can find the data in Table 1.1.

1.1.1 This is a subsection heading

Text after the subsection. And we have a figure, Figure 2.1.

Figure 1.1: Hollow circles

Figure 1.2: Some TikZ picture.

Heading 1	Multicolumn Heading 1		
	Heading 2	Heading 3	Heading 4
1	19, 20 (19.5)	NA	NA
3	∞^* (∞)	18, 15 (16.5)	9, 9 (9)
5	23, 18 (20.5)	16 (16)	7, 7, 8 (7.33)
*Some random comment for the whole table.

Appendices

Appendix A

Notes on the style-file project

These style-files have been modified by Christopher Wilson to support the new Electronic Thesis and Dissertation process. The following was written before the ETD guidelines update on Fall 2009. Changes to the original appendix have been shown in *italics*.

These style-files for use with \LaTeX *were* maintained by Darrel Hankerson¹ and Ed Slaminka².

In 1990, department heads and other representatives met with Dean Doorenbos and Judy Bush-Crofton (then responsible for manuscript approval). This meeting was prompted by a memorandum³ from members of the mathematics departments concerning the *Thesis and Dissertation Guide* and the approval process. There was wide agreement among the participants (including Dean Doorenbos) to support the basic recommendations outlined in the memorandum. The revised *Guide* reflected some (but not all) of the agreements of the meeting.

Ms Bush-Crofton was supportive of the plan to obtain “official approval” of these style files.⁴ Unfortunately, Ms Bush-Crofton left the Graduate School before the process was completed. In 1994, we were revisiting some of the same problems which were resolved at the 1990 meeting.

In Summer 1994, I sent several memoranda to Ms Ilga Trend of the Graduate School, reminding her of the agreements made at the 1990 meeting. Professors A. Scottedward Hodel and Stan Reeves provided additional support. In short, it is essential that the Graduate School honor its commitments of the 1990 meeting. It should be emphasized that Dean Doorenbos is to thank for the success of that meeting.

Maintaining these \LaTeX files has been more work than expected, in part due to continuing changes in requirement by the graduate school. The Graduate School occasionally has complete memory loss about the agreements of the 1990 meeting. If the Graduate School rejects your manuscript based on items controlled by the style-files, ask your advisor to contact the Graduate school (and copy to me) to urge cooperation.

Finally, there have been several requests for additions to the package (mostly formatting changes for figures, etc.). While such changes are not really part of the thesis-style package, it could be beneficial to collect these options and distribute with the package (making it easier on the next student). I’m especially interested in changes needed by various departments.

¹Mathematics and Statistics, 221 Parker Hall, 844-3641, hankedr@auburn.edu

²Mathematics and Statistics, 218 Parker, slamiee@auburn.edu

³Originally, the memorandum was presented to Professor Larry Wit. A copy is available on request.

⁴Followup memoranda gave a definition of “official approval.” Copies will be sent on request.
